Notice of Hearing on 1996 Low Income
Housing Tax Credit Program

The Division of Housing, Kansas Department of Commerce and Housing, will conduct a public hearing at 1:30 p.m. Friday, December 8, in Room West B, fourth floor, Security Benefit Tower, 700 S.W. Harrison, Topeka, to solicit public comment on the proposed 1996 Low Income Housing Tax Credit Program. A copy of the proposed 1996 State Allocation Plan may be obtained by calling (913) 296-2686.

In order to be considered, all comments must be submitted in writing before December 11 to Fred Bentley, LIHTC Program Administrator, Kansas Department of Commerce and Housing, 700 S.W. Harrison, Suite 1300, Topeka, 66603.

Gary Sherrer
Secretary of Commerce
and Housing

Doc. No. 017017

State of Kansas

Wildlife and Parks Commission

Notice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted by the Wildlife and Parks Commission at 7 p.m. Thursday, January 25, at the Ramada Inn Downtown, 420 E. 6th, Topeka, to consider the approval and adoption of three department regulations. There will be a public comment period during the evening meeting for any issues not on the agenda and additional comment periods will be available during the meeting on agenda items.

A workshop meeting on business of the Wildlife and Parks Commission will begin at 1:30 p.m. January 25 at the location listed above. The public also will be given the opportunity to comment on any nonagenda and agenda items during the afternoon meeting. The meeting will recess at 5 p.m., then resume at 7 p.m. at the same location for the regulatory hearing. Old and new business may also be discussed at this time. If necessary to complete the hearing or other business matters, the commission will reconvene at 9 a.m. January 26 at the location listed above.

If notified in advance, the department will have an interpreter available for the hard of hearing. To contact the department for this or any other reason, members of the public with a hearing impairment may call the TDD service at 1-800-766-3777. All public meeting areas are accessible to the physically handicapped.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Marilyn Alberg at (316) 672-5911.

This 60-day notice period prior to the hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed regulations.

All interested parties may submit written comments prior to the hearing to the chairman of the commission, Kansas Department of Wildlife and Parks, Suite 502, Landon State Office Building, 900 S.W. Jackson, Topeka, 66612. All interested parties will be given a reasonable opportunity at the hearing to express their views orally in regard to the adoption of the proposed regulations. During the hearing, all written and oral comments submitted by interested parties will be considered by the commission as a basis for approving, amending and approving, or rejecting the proposed regulations.

The regulations to be heard during the regulatory hearing portion of the meeting are as follows:

K.A.R. 115-2-5. Trail access pass; requirement, fees, exceptions and general provisions. This proposed new permanent regulation establishes a trail access pass requirement of all individuals 16 years of age and older using the Prairie Spirit Rail Trail or trail systems in the Sand Hills state park. The annual trail access pass fee would be \$10 and the daily trail access pass fee would be \$2. Certain exemptions are provided and valid pass time periods are established. Motor vehicle permit requirements are waived for the two areas.

Economic Impact Summary: First year department revenues from the passes are estimated at \$25,000 from the Prairie Spirit Rail Trail and \$10,000 from the Sand Hills state park. The revenues represent an expenditure by the public choosing to use the trails.

K.A.R. 115-15-1. Threatened and endangered species; general provisions. This permanent regulation is proposed for amendment. The amendment would add the Topeka shiner as a threatened species in Kansas.

Economic Impact Summary: Certain impacts may occur on those publicly funded projects which affect the Topeka shiner or its habitats. This would also involve those state agencies administering the projects. Interested individuals are requested to review the economic impact statement for a more complete description. The environmental benefits summary and property issues are discussed in the statement.

K.A.R. 115-15-2. Nongame species; general provisions. This permanent regulation is proposed for amendment. The amendment would remove the Topeka shiner from the list of Kansas species in need of conservation.

Economic Impact Summary: No impact would occur as a result of such removal.

Department of Health
and Environment

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit. Ash Grove Cement Company has applied for a Class II operating permit in accordance with the provisions of K.A.R. 28-13-540. Ash Grove Cement operates a portland cement distribution terminal. Emissions of particulate matter with a diameter of 10 microns or less (PM_{2.5}) were evaluated during the permit review process. The purpose of a Class II permit is to limit the potential-to-emit for these pollutants to below major source thresholds.

Ash Grove Cement Company, Overland Park, owns and operates the stationary source located at 620 Southwest Blvd., Kansas City, Kansas.

A copy of the proposed permit, permit application, all supporting nonconfidential documentation and all information relied upon during the permit application review process is available for public review during normal business hours at the KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, and at the Wyandotte County Health Department—Department of Air Quality, 619 Ann Ave., Kansas City, Kansas. To obtain or review the proposed permit and supporting documentation, contact Michael Lewis, (913) 573-5700, at the Wyandotte County Health Department—Department of Air Quality. The standard departmental cost will be assessed for any copies requested.

Direct written questions or comments regarding the proposed permit to Michael Lewis, Department of Air Quality, Wyandotte County Health Department, 619 Ann Ave., Kansas City, KS 66101. Written comments must be received by the close of business December 26 in order to be considered in formulating a final permit decision.

A person may request a public hearing be conducted on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, not later than the close of business December 26 in order for the Secretary of Health and Environment to consider the request.

James J. O'Connell
Secretary of Health
and Environment

Doc. No. 017025

State of Kansas

Department of Health
and EnvironmentRequest for Variance from
Hazardous Waste Regulations

The Kansas Department of Health and Environment is providing public notice that on October 26, 1995, General Electric Aircraft Engine Maintenance Center, located at Strother Field Industrial Park in Arkansas City, submitted a request for a variance from specific hazardous waste regulations, in accordance with K.A.R. 28-31-13(a).

The variance is requested from K.A.R. 28-31-4(j), which allows a Kansas or EPA generator to accumulate as much as 55 gallons of each type of hazardous waste in not more than one container at or near any point of generation where waste initially accumulates, and which is under the control of the operator of the process generating the waste.

General Electric generates spent fluorescent bulbs. The past few years General Electric has been investigating better and safer ways of handling spent bulbs. General Electric has found a company that manufactures fibre drums specifically for 4 ft. and 8 ft. spent fluorescent bulbs. These drums exceed the 55-gallon satellite container limit; however, General Electric believes that the fibre drums will make it both safer and easier to handle and accumulate the spent bulbs. KDHE has reviewed the variance request and concluded that the variance is justified. In accordance with K.A.R. 28-31-13(b), public notice is being provided of the tentative decision to grant the variance.

Copies of the variance request will be available for public review from November 27-December 27 from 8 a.m. to 4:30 p.m. weekdays at the KDHE, Building 740, Forbes Field, Topeka, and at the KDHE district office, 130 S. Market, sixth floor, Wichita.

Comments concerning this variance request may be directed to Candy Williamson, Hazardous Waste Section, KDHE, Building 740, Topeka, 66620. Comments must be submitted in writing prior to December 20. Requests for additional information may be made by contacting KDHE at (913) 296-1600.

Upon the written request of any interested person, a public meeting may be conducted to consider comments on this tentative decision. The person requesting a meeting shall state the issues to be raised and shall explain why written comments would not suffice to communicate the person's views. If a decision is made to conduct a public meeting, a separate public notice detailing the date and place of a public meeting will be issued.

After evaluating all public comments, a final decision shall be made by the secretary and a notice of the final decision shall be published in the Kansas Register. If approved, any conditions or time limitations needed to comply with all applicable state or federal laws or to protect human health or safety or the environment shall be specified by the secretary. A date upon which the variance will no longer be valid shall be prescribed in the final decision.

James J. O'Connell
Secretary of Health
and Environment

Doc. No. 017024

State of Kansas

Department of Health
and EnvironmentNotice Concerning Kansas
Water Pollution Control Permits

In accordance with state regulations 28-16-57 through 63, 28-18-1 through 4, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, tentative permits have been prepared for discharges to the waters of the United States and the state of Kansas for the applicants described below. The tentative determinations for permit content are based on preliminary staff review, applying the appropriate standards, regulations, and effluent limitations of the state of Kansas and the EPA, and when issued will result in a state water pollution control permit and national pollutant discharge elimination system authorization to discharge subject to certain effluent limitations and special conditions.

Public Notice No. KS-AG-95-205/211

Name and Address of Applicant	Legal Description	Receiving Water
Farwell Farms c/o Dean Farwell Route 1, Box 40A Seneca, KS 66538	NW/4, Sec. 11, T1S, R12E, Nemaha County	Missouri River Basin

Kansas Permit No. A-MONM-S032

This is an existing facility for 1,675 head (670 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided for 21,270 cubic feet, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: A livestock waste management plan for the facility shall be developed. The plan shall cover, but not be limited to, the following items: handling and disposal equipment for both solid and liquid wastes, land application practices used to protect against runoff and leaching, waste application rates based on crop nutrient utilization, and identification of adequate land areas for application of all wastes. Detailed guidance and requirements will be provided by the department. A plan shall be submitted to the department within six months following receipt of detailed requirements. The approved plan will become part of this permit.

Name and Address of Applicant	Legal Description	Receiving Water
Neil Holloway Route 2, Box 97 Kincaid, KS 66039	NW/4, Sec. 29, T2S, R20E, Anderson County	Marais des Cygnes River Basin

Kansas Permit No. A-MCAN-S027

This is an existing facility for 600 head (240 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided for 11,520 cubic feet, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: A livestock waste management plan for the facility shall be developed. The plan shall cover, but not be limited to, the following items: handling and disposal equipment for both solid and liquid wastes, land application practices used to protect against runoff and leaching, waste application rates based on crop nutrient utilization, and identification of adequate land areas for application of all wastes. Detailed guidance and requirements will be provided by the department. A plan shall be submitted to the department within six months following receipt of detailed requirements. The approved plan will become part of this permit.

Name and Address of Applicant	Legal Description	Receiving Water
Sunflower Pork (Meek Facility) Route 2, Box 188A Westphalia, KS 66093	SW/4, Sec. 23, T19S, R22E, Linn County	Marais des Cygnes River Basin

Kansas Permit No. A-MCLN-S002

This is an existing facility for 900 head (360 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided for 45,300 ft³ cubic feet, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: A livestock waste management plan for the facility shall be developed. The plan shall cover, but not be limited to, the following items: handling and disposal equipment for both solid and liquid wastes, land application practices used to protect against runoff and leaching, waste application rates based on crop nutrient utilization, and identification of adequate land areas for application of all wastes. Detailed guidance and requirements will be provided by the department. A plan shall be submitted to the department within six months following receipt of detailed requirements. The approved plan will become part of this permit.

Name and Address of Applicant	Legal Description	Receiving Water
Ronald Dean Linsey Route 2, Box 120 Lebo, KS 66856	NE/4, Sec. 23, T19S, R14E, Coffey County	Neosho River Basin

Kansas Permit No. A-NECF-M001

This is an existing facility for 70 head (90 animal units) of dairy cattle.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided for 44,544 cubic feet, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: A livestock waste management plan for the facility shall be developed. The plan shall cover, but not be limited to, the following items: handling and disposal equipment for both solid and liquid wastes, land application practices used to protect against runoff and leaching, waste application rates based on crop nutrient utilization, and identification of adequate land areas for application of all wastes. Detailed guidance and requirements will be provided by the department. A plan shall be submitted to the department within six months following receipt of detailed requirements. The approved plan will become part of this permit.

Name and Address of Applicant	Legal Description	Receiving Water
John McCollum & Sons Route 1, Box 114 Fall River, KS 67047	NE/4, Sec. 26, T27S, R11E, Greenwood County	Verdigris River Basin

Kansas Permit No. A-VEMG-M001

This is an existing facility for 150 head (210 animal units) of dairy cattle.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided for 73,360 cubic feet, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: A livestock waste management plan for the facility shall be developed. The plan shall cover, but not be limited to, the following items: handling and disposal equipment for both solid and liquid wastes, land application practices used to protect against runoff and leaching, waste application rates based on crop nutrient utilization, and identification of adequate land areas for application of all wastes. Detailed guidance and requirements will be provided by the department. A plan shall be submitted to the department within six months following receipt of detailed requirements. Name and Address of Applicant	Legal Description	Receiving Water
Richter Pork c/o Brian Richter 10975 Lasite Road Leonardville, KS 66449	SE/4, Sec. 11, T8S, R4E, Riley County	Lower Republican River Basin

Kansas Permit No. A-LRRL-S001

This is an expansion facility for 700 head (280 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided for 32,730 cubic feet, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: None, existing controls adequate.

Name and Address of Applicant	Legal Description	Receiving Water
Johnnie E. Redding, Jr. 190 Blackbird Road S.W. Gridley, KS 66852	NE/4, Sec. 14, and NW/4, Sec. 13, T23S, R13E, Coffey County	Neosho River Basin

Kansas Permit No. A-NECF-S010

This is an existing facility for 2400 head (960 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided for 5,040 cubic feet for the enclosed facilities and the open lot is designed to drain to the grassed waterways and thence a minimum of 3,000 feet of native pasture, which meets minimum requirements.

Compliance Schedule: A livestock waste management plan for the facility shall be developed. The plan shall cover, but not be limited to, the following items: handling and disposal equipment for both solid and liquid wastes, land application practices used to protect against runoff and leaching, waste application rates based on crop nutrient utilization, and identification of adequate land areas for application of all wastes. Detailed guidance and requirements will be provided by the department. A plan shall be submitted to the department within six months following receipt of detailed requirements. The approved plan will become part of this permit.

Public Notice No. KS-95-99

Name and Address of Applicant	Waterway	Type of Discharge
Coastal Refining & Mktg. Wichita Terminal 110 E. 21st St. Wichita, KS 67214-1442	Arkansas River via Chisholm Creek via storm sewer	Contaminated stormwater

Kansas Permit No. I-AR94-PO78 Fed. Permit No. KS-0092118

Facility Description: This facility is a petroleum refinery at which refining and processing operations have been discontinued. It is currently a bulk distribution terminal and petroleum product storage facility. A portion of the stormwater runoff from the facility is routed to tankage. This stormwater is routed to Chisholm Creek if it meets permit requirements or to the Wichita Sanitary Sewer if it exceeds permit limits. Uncontaminated stormwater from other areas of the plant is discharged to Chisholm Creek. The effluent limitations are pursuant to Kansas surface water quality standards, K.A.R. 28-16-28(b-f), and federal surface water criteria, and are water quality based.

Public Notice No. KS-ND-95-82

Name and Address of Applicant	Location	Type of Discharge
Mineral Springs Trailer Ct. c/o Bill and Rita Craig Route 1, Box 50E Carbondale, KS 66414	NW/4, S18, T14S, R16E, Osage County	Nonoverflowing

Kansas Permit No. C-KS07-NT02

Facility Descriptions: This is a proposed permit for operation of an existing nonoverflowing wastewater treatment lagoon treating domestic wastewater. Disposal of the lagoon wastewater is by percolation and evaporation. The proposed permit contains a schedule of compliance requiring the facility to obtain the services of a KDHE-certified operator by December 31, 1996.

Written comments on the proposed determinations may be submitted to the permit clerk, or to Dorothy Geisler for agricultural permits, Kansas Department of Health and Environment, Division of Environment, Bureau of Water, Forbes Field, Building 283, Topeka, 66620. All comments postmarked or received on or before Decem-

ber 22 will be considered in the formulation of final determinations regarding this public notice. Please refer to the appropriate public notice number (KS-AG-95-205/211, KS-95-99 KS-ND-95-82) and the name of applicant as listed when preparing comments.

If no objections are received during the public notice period, the Secretary of Health and Environment will issue the final determinations. If response to this notice indicates significant public interest, a public hearing may be held in conformance with state regulation 28-16-61. Media coordination (newspapers, radio) for publication and/or announcement of the public notice or public hearing is handled by the Kansas Department of Health and Environment.

The application, proposed permit, including proposed effluent limitations and special conditions, fact sheets as appropriate, comments received, and other information are on file and may be inspected at the Kansas Department of Health and Environment offices, Building 283, Forbes Field, Topeka, from 8 a.m. to 4:30 p.m. Monday through Friday. The documents are available upon request at the copying cost assessed by KDHE. Additional copies of this public notice also may be obtained at the Division of Environment.

James J. O'Connell
Secretary of Health
and Environment

Doc. No. 017009

State of Kansas

Board of Technical Professions

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 10 a.m. Friday, January 26, in the Versailles A Room of the Holiday Inn—Holidome, 605 Fairlawn Road, Topeka, to consider the adoption of proposed rules and regulations of the Board of Technical Professions.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit written comments prior to the hearing to the Board of Technical Professions, Suite 507, Landon State Office Building, 900 S.W. Jackson, Topeka, 66612. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request each participant to limit any oral presentation to five minutes.

These regulations are proposed for adoption on a permanent basis. A brief summary of the substance of the proposed regulations and their economic impact follows.

Article 14.—CONTINUING EDUCATION REQUIREMENTS

K.A.R. 66-14-1. Requirements. This is a newly proposed regulation which will require proof of completion of continuing education as a condition for licensure renewal. Beginning with licensure renewals that expire

(continued)

March 31, 1998, each land surveyor shall have completed 30 PDH units of acceptable continuing education during the two-year period immediately preceding the biennial renewal date as a condition for license renewal. Beginning with licensure renewals that expire April 30, 2000, each professional engineer, architect and landscape architect shall have completed 30 PDH units of acceptable continuing education during the two-year period immediately preceding each biennial renewal date as a condition for license renewal. The licensee may carry a maximum of 30 PHD units forward into the subsequent renewal period if the biennial renewal requirement is exceeded.

Economic Impact: There will be an increased workload to the agency as a result of implementing this regulation. The agency's intent is to absorb the additional workload during the initial start-up of implementing these regulations; therefore, there will be no fiscal impact on the agency at this time.

There will be no increased fees assessed by the agency to the licensees during the initial implementation of continuing education for land surveyors. There will be a fiscal impact to the licensees as a result of being required to obtain continuing education credits. The costs to the licensees are unknown and will depend upon what type of continuing education activity the licensee selects to fulfill the requirements.

K.A.R. 66-14-2. Definitions. This regulation defines the terminology referred to throughout the regulations, such as "contact hour," "PDH," "CEU," "activity," "dual licensee" and "sponsor."

Economic Impact: There will be no additional economic impact on either the agency or industry as a result of this regulation.

K.A.R. 66-14-3. Activities. This regulation states what type of activities satisfy the continuing education requirement.

Economic Impact: There will be no additional economic impact on either the agency or industry as a result of this regulation.

K.A.R. 66-14-4. Criteria. This regulation defines the criteria for continuing education.

Economic Impact: There will be no additional economic impact on either the agency or industry as a result of this regulation.

K.A.R. 66-14-5. Computation of credit. This regulation defines the amount of credit that a continuing education activity may receive.

Economic Impact: There will be no additional economic impact on either the agency or industry as a result of this regulation.

K.A.R. 66-14-6. Exemptions. This regulation states the type of exemptions from the continuing education requirement that the board may approve.

Economic Impact: There will be no additional economic impact on either the agency or industry as a result of this regulation.

K.A.R. 66-14-7. Records. This regulation states the type of records the licensee is required to maintain for continuing education activities.

Economic Impact: There will be no additional economic impact on either the agency or industry as a result of this regulation.

K.A.R. 66-14-8. Reinstatement. This regulation states the number of continuing education hours licensees need to fulfill if their license has been cancelled and they wish to apply for reinstatement.

Economic Impact: There will be no additional economic impact on either the agency or industry as a result of this regulation.

K.A.R. 66-14-9. Proof of compliance. This regulation states that the licensee must provide proof as required by the board of satisfying the continuing education requirements. If the licensee fails to provide proof, then the license shall not be renewed.

Economic Impact: There will be no additional economic impact on either the agency or industry as a result of this regulation.

K.A.R. 66-14-10. Reciprocity. This regulation states that a licensee who resides in another jurisdiction may satisfy the continuing education requirements if the non-resident provides evidence of having met the requirements in another jurisdiction that are equal to or exceed the continuing education requirements of Kansas.

Economic Impact: There will be no additional economic impact on either the agency or industry as a result of this regulation.

K.A.R. 66-14-11. Dual licensee. This regulation states that an individual who is licensed in more than one technical profession must earn a minimum of 20 PDH per renewal period in each technical profession area. The number of professional development hours that may be carried forward by a dual licensee into the next renewal period shall not exceed 20 PDH in each professional area.

Economic Impact: There will be no additional economic impact on either the agency or industry as a result of this regulation.

K.A.R. 66-14-12. Disallowance. This regulation states that if a licensee's continuing education hours are disallowed by the board, the licensee has 120 days after notification to meet the requirement.

Economic Impact: There will be no additional economic impact on either the agency or industry as a result of this regulation.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least 10 working days in advance of the hearing by contacting Betty Rose at (913) 296-3053.

Further information or copies of the full text of the regulations and the fiscal impact statements may be obtained by contacting the Board of Technical Professions.

Sealed Bids

Subject to the notice of sale and preliminary official statement, bids will be received by the city clerk of the City of Lawrence, Kansas, on behalf of the governing body at City Hall, 6 E. 6th, Lawrence, KS 66044, until 11 a.m. local time on Tuesday, December 5, 1995, for the purchase of \$4,190,000 principal amount of General Obligation Sales Tax Temporary Notes, Series 1995-D; \$3,070,000 principal amount of General Obligation Temporary Notes, Series 1995-E; and \$200,000 principal amount of General Obligation Temporary Notes, Series 1995-F (collectively referred to as the notes). No bid of less than 99.5 percent of the entire principal amount of a series of the notes and accrued interest to the date of delivery will be considered. Bids may be sent by telecopy to the city clerk at (913) 832-4305 or (913) 832-3231. Any bidder submitting a bid by telecopy acknowledges that the city assumes no liability or responsibility for any transmittal error or delay in connection with such bids.

Note Details

The notes will consist of fully registered notes in the denomination of \$5,000 or any integral multiple thereof. Notes shall initially be registered in the name of Cede & Co., as nominee of the Depository Trust Company, New York, New York, to which payment of principal of and interest on the notes will be made. Individual purchases of notes will be made in book-entry form only. Purchasers will not receive certificates representing their interest in notes purchased. The notes will be dated December 1, 1995, will become due on October 1, 1996. The notes will bear interest from the dated date at rates to be determined when the notes are sold, and interest will be payable semi-annually on April 1, 1996 and October 1, 1996 (or earlier redemption date). The city treasurer will be the paying agent and note registrar for the notes.

Good Faith Deposit

Each bidder making a bid for a series of the notes shall provide a good faith deposit in the form of a cashier's or certified check or a financial surety bond in the amount of 1 percent of the principal amount of such series of the notes.

Delivery

The city will pay for the preparation of the notes and will deliver the notes in book-entry form only to the Depository Trust Company, New York, New York, on or about December 21, 1995.

Assessed Valuation and Indebtedness

The equalized assessed tangible valuation for computation of bonded debt limitations for the year 1995 is \$366,123,512. The total general obligation indebtedness of the city as of the date of the notes, including the notes being sold, is \$37,180,000.

Approval of Notes

The notes will be sold subject to the legal opinion of Gilmore & Bell, P.C., Kansas City, Missouri, bond counsel, whose approving legal opinion as to the validity of the notes will be furnished and paid for by the city and delivered to the successful bidder as and when the notes are delivered.

Additional Information

Additional information regarding the notes may be obtained from the city clerk, Raymond J. Hummert, or the city's director of finance, A. Ed Mullins, (913) 832-3214; or from bond counsel, Gilmore & Bell, P.C., 700 W. 47th, Suite 400, Kansas City, MO 64112, (816) 931-7500.

Summary Notice of Bond Sale

\$2,250,000

Finney County, Kansas

General Obligation Sales Tax Bonds

(General obligation bonds payable from unlimited ad valorem taxes and from a pledge of revenues received from a county-wide retailers' sales tax)

Details of the Sale

Subject to the terms and conditions of the complete official notice of bond sale dated November 20, 1995, of Finney County, Kansas, in connection with the county's General Obligation Sales Tax Bonds, Series 1995, herein-after described, sealed, written bids shall be received at the office of the county clerk at the Finney County Courthouse, 425 N. 8th, Garden City, Kansas, until 1 p.m. Central Time on Monday, December 4, 1995, for the purchase of the bonds. All bids shall be publicly opened, read aloud and tabulated on said date and at said time and shall thereafter be immediately considered and acted upon by the Board of County Commissioners of the county.

No oral or auction bids for the bonds shall be considered, and no bids for less than the entire series of bonds shall be considered.

Bids shall be accepted only on the official bid form which has been prepared for the public bidding on these bonds, and which may be obtained from the county clerk, the county's financial advisor or the county's bond counsel. Bids may be submitted by mail or may be delivered in person, and must be received at the place and not later than the date and time hereinbefore specified. Each bid shall be accompanied by a good faith deposit in the form of a certified or cashier's check drawn on a bank located within the United States and made payable to the order of the county, and shall be in an amount equal to 2 percent of the principal amount of the bonds. (Reference is

made to the official notice of bond sale for specific conditions for bidding.)

Details of the Bonds

The bonds to be sold are in the aggregate principal amount of \$2,250,000 and shall bear a dated date of December 1, 1995. The bonds shall be issued as fully registered bonds in denominations of \$5,000, or any integral multiple thereof not exceeding the principal amount of bonds maturing in any year. The bonds shall bear interest, payable as hereinafter set forth, at the rates specified by the successful bidder for the bonds. The bonds are *not* subject to redemption prior to their maturities.

Interest on the bonds shall be payable semiannually on March 1 and September 1 in each year, commencing March 1, 1996, and the bonds shall mature serially on September 1 in each of the years and principal amounts as follows:

Principal Amount	Maturity Date
\$715,000	1996
\$745,000	1997
\$790,000	1998

Payment of Principal and Interest

The Kansas State Treasurer shall serve as the bond registrar and paying agent for the bonds, and the principal of the bonds shall be payable upon surrender at the paying agent's principal offices in the City of Topeka, Kansas. Interest shall be paid by the mailing of a check or draft of the paying agent to the registered owners of the bonds.

Security for the Bonds

The bonds and the interest thereon shall constitute general obligations of the county, and the full faith, credit and resources of the county shall be pledged to the payment thereof. Payment of the principal and interest on the bonds is additionally secured by a pledge of sales tax revenues. The county has irrevocably pledged the revenues allocated to the county from a county-wide retailers' sales tax to the payment of the principal and interest on the bonds, and is obligated to levy ad valorem taxes without limitation as to rate or amount upon all of the taxable tangible property within the territorial limits of the county in order to pay any part of said principal and interest on the bonds not paid from such sales tax revenues.

Delivery of the Bonds

The bonds, duly printed, executed and registered, shall be furnished and delivered at the expense of the county to the successful bidder, or at its direction, on or before December 19, 1995, at such bank or trust company or other qualified depository in the state of Kansas or Kansas City, Missouri, as may be specified by the successful bidder. Delivery elsewhere shall be made at the expense of the successful bidder.

Legal Opinion

The bonds will be sold subject to the legal opinion of Hinkle, Eberhart & Elkouri, L.L.C., Wichita, Kansas, bond counsel, whose fees will be paid by the county. Bond counsel's approving legal opinion as to the validity of the bonds will be printed on the bonds and will be delivered to the successful bidder upon delivery of the bonds. (Ref-

erence is made to the official notice of bond sale for a discussion of tax exemption and other legal matters.)

Financial Matters

The county's 1994 equalized assessed tangible valuation for computation of bonded debt limitations during calendar year 1995 is \$313,847,934. The county's outstanding general obligation bonded indebtedness at December 1, 1995, totals the principal amount of \$5,425,000, including the bonds described herein. The county also has \$1,145,000 principal amount of temporary notes outstanding which mature in May 1996.

Official Statement

The county has prepared a preliminary official statement relating to the bonds, copies of which may be obtained from the county or the county's financial advisor. The preliminary official statement is in a form "deemed final" by the county for the purpose of the Securities and Exchange Commission's Rule 15c2-12(b)(1), but is subject to revision, amendment and completion in the final official statement. Upon the sale of the bonds, the county shall furnish the successful bidder with a reasonable number of copies of the final official statement, without additional cost, upon request. Copies of the final official statement in excess of a reasonable number may be ordered at the successful bidder's expense.

Continuing Disclosure

The county will adopt a resolution establishing an undertaking to provide ongoing disclosure concerning the county in connection with and for the benefit of owners of the bonds, as required under Section (b)(5)(i) of Securities and Exchange Commission Rule 15c2-12. The provisions of the resolution are summarized in the preliminary official statement, and will also be summarized in the final official statement. A certified copy of the resolution will be delivered to the successful bidder at or prior to the delivery of the bonds.

Additional Information

For additional information regarding the county, the bonds and the public sale, interested parties are invited to request copies of the complete official notice of bond sale and official bid form and the county's preliminary official statement for the bonds, all of which may be obtained from the county clerk at the address and telephone number shown below; from the county's financial advisor, Bigelow & Company, a Division of Dougherty, Dawkins, Strand & Bigelow Incorporated, 1401 17th St., Suite 1300, Denver, CO 80202, (303) 292-5900, Fax (303) 292-5705, Attention: Russ Caldwell; or from the county's bond counsel, Hinkle, Eberhart & Elkouri, L.L.C., 200 Epic Center, 301 N. Main, Wichita, KS 67202, (316) 267-2000, Fax (316) 264-1518.

Doc. No. 017016

(Published in the Kansas Register November 23, 1995.)

Summary Notice of Bond Sale**\$810,000****City of Lindsborg, Kansas****General Obligation Bonds, Series 1996****(General obligation bonds payable from unlimited ad valorem taxes)****Sealed Bids**

Subject to the notice of bond sale dated November 13, 1995, sealed bids will be received by the clerk of the City of Lindsborg, Kansas (the issuer), on behalf of the governing body at City Hall, 101 S. Main, Lindsborg, KS 67456, until 7 p.m. C.S.T. on December 4, 1995, for the purchase of \$810,000 principal amount of General Obligation Bonds, Series 1996. No bid of less than 100 percent of the principal amount of the bonds and accrued interest thereon to the date of delivery will be considered.

Bond Details

The bonds will consist of fully registered bonds in the denomination of \$5,000 or any integral multiple thereof. The bonds will be dated January 1, 1996, and will become due on October 1 in the years as follows:

Year	Principal Amount
1996	\$80,000
1997	80,000
1998	80,000
1999	80,000
2000	80,000
2001	80,000
2002	80,000
2003	80,000
2004	85,000
2005	85,000

The bonds will bear interest from the date thereof at rates to be determined when the bonds are sold as hereinafter provided, which interest will be payable semiannually on April 1 and October 1 in each year, beginning on April 1, 1996.

Paying Agent and Bond Registrar

Kansas State Treasurer, Topeka, Kansas.

Good Faith Deposit

Each bid shall be accompanied by a cashier's or certified check drawn on a bank located in the United States of America in the amount of \$16,200 (2 percent of the principal amount of the bonds).

Delivery

The issuer will pay for printing the bonds and will deliver the same properly prepared, executed and registered without cost to the successful bidder on or before January 11, 1996, at such bank or trust company in the contiguous United States of America as may be specified by the successful bidder.

Assessed Valuation and Indebtedness

The equalized assessed tangible valuation for computation of bonded debt limitations for the year 1995 is \$11,706,450. The total general obligation indebtedness of the issuer as of the date of delivery of the bonds, includ-

ing the bonds being sold, but excluding temporary notes to be retired in conjunction therewith, is \$2,490,000.

Approval of Bonds

The bonds will be sold subject to the legal opinion of Gilmore & Bell, P.C., Wichita, bond counsel, whose approving legal opinion as to the validity of the bonds will be furnished and paid for by the issuer, printed on the bonds and delivered to the successful bidder as and when the bonds are delivered.

Additional Information

Additional information regarding the bonds may be obtained from the clerk, (913) 227-3355, or from the financial advisor, George K. Baum & Company, 100 N. Main, Suite 810, Wichita, KS 67202, Attention: Charles M. Bouilly, (316) 264-9351.

Dated November 13, 1995.

Summary Notice of Bond Sale

\$2,600,000

Unified School District No. 411

Marion County, Kansas (Goessel)

General Obligation School Building Bonds

Series 1995

(General obligation bonds payable from
unlimited ad valorem taxes)

Sealed Bids

Subject to the notice of bond sale dated November 13, 1995, sealed bids will be received by the clerk of Unified School District No. 411, Marion County, Kansas (the issuer), on behalf of the governing body at P.O. Box 68, Goessel, KS 67053, until 5 p.m. C.S.T. on November 30, 1995, for the purchase of \$2,600,000 principal amount of General Obligation School Building Bonds, Series 1995. No bid of less than 100 percent of the principal amount of the bonds and accrued interest thereon to the date of delivery will be considered.

Bond Details

The bonds will consist of fully registered bonds in the denomination of \$5,000 or any integral multiple thereof. The bonds will be dated December 1, 1995, and will become due on April 1 in the years as follows:

Year	Principal Amount
1997	\$ 30,000
1998	75,000
1999	80,000
2000	90,000
2001	95,000
2002	100,000
2003	105,000
2004	110,000
2005	120,000
2006	125,000
2007	130,000
2008	135,000
2009	145,000
2010	150,000
2011	160,000
2012	170,000
2013	180,000
2014	190,000
2015	200,000
2016	210,000

The bonds will bear interest from the date thereof at rates to be determined when the bonds are sold as here-

(continued)

inafter provided, which interest will be payable semiannually on April 1 and October 1 in each year, beginning on April 1, 1997.

Paying Agent and Bond Registrar

Kansas State Treasurer, Topeka, Kansas.

Good Faith Deposit

Each bid shall be accompanied by a cashier's or certified check drawn on a bank located in the United States of America in the amount of \$52,000 (2 percent of the principal amount of the bonds).

Delivery

The issuer will pay for printing the bonds and will deliver the same properly prepared, executed and registered without cost to the successful bidder on or before December 15, 1995, at such bank or trust company in the contiguous United States of America as may be specified by the successful bidder.

Assessed Valuation and Indebtedness

The equalized assessed tangible valuation for computation of bonded debt limitations for the year 1995 is \$8,168,715. The total general obligation indebtedness of the issuer as of the date of delivery of the bonds, including the bonds being sold, is \$2,600,000.

Approval of Bonds

The bonds will be sold subject to the legal opinion of Gilmore & Bell, P.C., Wichita, Kansas, bond counsel, whose approving legal opinion as to the validity of the bonds will be furnished and paid for by the issuer, printed on the bonds and delivered to the successful bidder as and when the bonds are delivered.

Additional Information

Additional information regarding the bonds may be obtained from the clerk, (316) 367-8118; or from the financial advisor, Cooper Malone McClain, Inc., Wichita, Kansas, Attention: David K. Malone, (316) 264-2400.

Dated November 13, 1995.

Permanent Administrative Regulations

Article 19.—AMBIENT AIR QUALITY STANDARDS AND AIR POLLUTION CONTROL

28-19-7. General provisions; definitions. All terms and abbreviations used in the Kansas air quality regulations shall have the following meanings unless otherwise defined in an individual regulation or unless the context clearly requires otherwise.

(a) "Affected facility" or "facility" means any building, structure, machine, equipment, device or installation, or combination thereof, to which an emissions limitation or standard applies.

(b) "Affected source" means a stationary source that includes one or more affected units subject to emission reduction requirements or limitations under title IV, acid deposition control, of the federal clean air act, 42 USC 7401 et seq.

(c) "Affected state" means any state:

(1) which is contiguous with Kansas and whose air quality may be affected by emissions from a stationary source or proposed stationary source in Kansas; or

(2) which is within 50 miles of a permitted stationary source located in Kansas.

(d) "Agricultural-related activity."

(1) "Agricultural-related activity" means processes used in the production of:

(A) popcorn that is packaged but not popped;

(B) ornamental floriculture and nursery products;

(C) shortening, table oils and margarine;

(D) prepared feeds and feed ingredients for animals and fowl;

(E) molasses, which is mixed or blended;

(F) cotton ginnings; and

(G) flour and other grain mill products.

(2) "Agricultural-related activity" also means sunflower oil reclaiming, seed cleaning and operations related to alfalfa dehydrators, sun-cured alfalfa plants, soybean oil mills and grain elevators.

(e) "Applicable requirement," for purposes of class I operating permits, means:

(1) the standards or other requirements which are part of the approved state implementation plan or part of any applicable federally promulgated implementation plan;

(2) any term or condition of a construction permit issued pursuant to:

(A) K.A.R. 28-19-16 through 16m, and amendments thereto, nonattainment area requirements;

(B) K.A.R. 28-19-17 through 17q, and amendments thereto, prevention of significant deterioration requirements;

(C) any permit issued by the USEPA pursuant to part C of title I of the federal clean air act; or

(D) K.A.R. 28-19-300, or its predecessor, K.A.R. 28-19-14;

(3) any standard or other requirement under section 111, standards of performance for new stationary sources, of the federal clean air act, including section 111(d);

(4) any standard or other requirement under section 112, hazardous air pollutants, of the federal clean air act, including any requirement concerning accident prevention under section 112(r)(7);

(5) any standard or other requirement of the acid rain program under title IV, acid deposition control, of the federal clean air act or regulations promulgated thereunder;

(6) any requirement established pursuant to section 504(b), permit requirements and conditions, monitoring and analysis, of the federal clean air act or section 114(a)(3), inspections, monitoring and entry, enhanced monitoring and compliance certification, of the federal clean air act;

(7) any standard or other requirement governing solid waste incineration under section 129, solid waste combustion, of the federal clean air act;

(8) any standard or other requirement for consumer and commercial products under section 183(e), federal ozone measures, control of emissions from certain sources, of the federal clean air act;

(9) any standard or other requirement for tank vessels under section 183(f), federal ozone measures, tank vessel standards, of the federal clean air act;

(10) any standard or other requirement of the regulations promulgated to protect stratospheric ozone under title VI, stratospheric ozone protection, of the federal clean air act, unless the USEPA has determined that such requirements need not be contained in a class I operating permit; and

(11) any national ambient air quality standard or increment or visibility requirement under part C, prevention of significant deterioration of air quality, of the title I, air pollution prevention and control, of the federal clean air act, but only as it would apply to temporary sources permitted pursuant to requirements adopted to enable the department to administer a program developed to implement the provisions of section 504(e), permit requirements and conditions, temporary sources, of the federal clean air act.

(f) "Application" or "application form" means the application form and all supporting documentation unless the context clearly indicates otherwise.

(g) "Area source" means a stationary source of hazardous air pollutions which is not a major source.

(h) "ASTM" means the American society for testing and materials.

(i) "Begin actual construction" means the initiation of physical on-site construction activities on an emissions unit that are of a permanent nature. These activities include but shall not be limited to, installation of building supports and foundations, laying of underground pipe-work, and construction of permanent storage structures. With respect to a change in method of operation, this term refers to those on-site activities other than preparatory activities which mark the initiation of the change.

(j) "Building, structure, facility, or installation" means all of the air pollutant emitting activities that belong to the same industrial grouping, are located on one or more contiguous or adjacent properties, and are under the control of the same person or persons under common control. Air pollutant emitting activities shall be considered as part of the same industrial grouping if they have the same two-digit code as described in the "Standard Industrial Classification Manual 1987," as published by the U.S. government printing office, as adopted at K.A.R. 28-19-301(f) (2).

(k) "Calendar quarter" means January through March, April through June, July through September, or October through December of any calendar year.

(l) "Capture efficiency (CE)" means the amount of an air contaminant emitted from an emissions unit which is directed to an air emissions control device (ce) divided by the total emissions of the air contaminant from the emissions unit (te) expressed as a two decimal number between 0.00 and 1.00. (CE = ce/te)

(m) "Class I or class II substance" means a substance subject to a standard promulgated under or established

by title VI, stratospheric ozone protection, of the federal clean air act, 42 USC 7401 et seq.

(n) "Class I, II or III area" means a classification assigned to any area of the state under the provisions of sections 162 and 164 of the act, 42 USC 7472 and 7474, as amended.

(o) "Commercial or medical waste incinerator" means any incinerator used to dispose of waste from any commercial operation or used to dispose of any medical services waste as defined at K.A.R. 28-29-27.

(p) "Construction" means any physical change or change in the method of operation, including fabrication, erection, installation, demolition, or modification of an emissions unit.

(q) "Control device" means any equipment, device or other article that is designed, installed or both for the purpose of reducing or preventing the discharge of contaminant emissions to the air.

(r) "Control device efficiency (CDE)" means the amount of an air contaminant directed to an air emissions control device or devices (ce) minus the emissions of the air contaminant emitted from the air emissions control device or devices, or otherwise released into the atmosphere (re), divided by the amount of the air contaminant directed to the air emissions control device or devices (ce), expressed as a two decimal number between 0.00 and 1.00. (CDE = (ce-re)/ce)

(s) "De minimis emissions" means air emissions of hazardous air pollutants which do not exceed the following levels:

CAS#	Chemical Name	De Minimis Level (tons/year)

7782492	Selenium and compounds (except those specifically listed)*1	0.1
7488564	Selenium sulfide (mono and di)	0.1
7783075	Hydrogen selenide	0.1
10102188	Sodium selenite	0.1
13410010	Sodium selenate	0.1
99999918	Radionuclides (including radon)	***3

Notes:

*1 For this chemical group, specific compounds or subgroups are listed in this table. For the remainder of the chemicals of the chemical group, a single de minimis value is listed, which applies to compounds that are not listed.

**2 The "toxicity equivalency factor" method in EPA/625/3-89-016, U.S. EPA, Interim procedures for estimating risks associated with exposures to mixtures, March, 1989, shall be used for PCDD/PCDF mixtures. A different de minimis level will be determined for each mixture depending on the equivalency factors used which are compound specific.

***3 Subpart B and I, and Appendix E of 40 CFR part 61 has been relied upon to assign a de minimis level based on an effective dose equivalent of 0.3 millirem per year for a 7 year exposure period that would result in a cancer risk of 1 per million. The individual radionuclides subject to de minimis levels used for section 112(g) are also contained in 40 CFR part 61.

(t) "Department" means the Kansas state department of health and environment or an authorized representative of the department.

(u) "Direct heating equipment" means any device in which fuel is burned in direct contact with, and for the purpose of heating, air that comes in direct contact with the material being processed.

(v) "Director" means the secretary of health and environment or a designated representative of the secretary.

(w) "Emission limitation and standard" means a requirement established pursuant to the Kansas air quality regulations.

(x) "Emission source" means any machine, equipment, device or other article or operation that directly or

indirectly releases contaminants into the outdoor atmosphere.

(y) "Emission unit" means any part or activity of a stationary source that emits or would have the potential to emit any regulated pollutant or any pollutant listed under section 112(b) of the federal clean air act.

(z) "Existing" means that a processing machine, equipment, device or other article, or any combination of the above, or any indirect heating equipment or incinerator is completed, under construction, or under purchase contract on the effective date of any applicable regulation.

(aa) "Existing facility" means a facility which is completed, under construction or under purchase contract at the time an emission limitation or standard becomes applicable to such facilities.

(bb) "Facility" or "affected facility" means any building, structure, machine, equipment, device or installation, or combination thereof, to which an emissions limitation or standard applies.

(cc) "Federal clean air act" means 42 USC 7401 et seq., and amendments thereto.

(dd) "Federally designated fugitive emissions source" means:

- (1) coal cleaning plants, with thermal dryers;
 - (2) kraft pulp mills;
 - (3) portland cement plants;
 - (4) primary zinc smelters;
 - (5) iron and steel mills;
 - (6) primary aluminum ore reduction plants;
 - (7) primary copper smelters;
 - (8) municipal incinerators capable of charging more than 250 tons of refuse per day;
 - (9) hydrofluoric, sulfuric, or nitric acid plants;
 - (10) petroleum refineries;
 - (11) lime plants;
 - (12) phosphate rock processing plants;
 - (13) coke oven batteries;
 - (14) sulfur recovery plants;
 - (15) carbon black plants that use a furnace process;
 - (16) primary lead smelters;
 - (17) fuel conversion plants;
 - (18) sintering plants;
 - (19) secondary metal production plants;
 - (20) chemical process plants;
 - (21) fossil-fuel boilers, or a combination thereof, totaling more than 250 million british thermal units per hour heat input;
 - (22) petroleum storage and transfer units with a total storage capacity exceeding 300,000 barrels;
 - (23) taconite ore processing plants;
 - (24) glass fiber processing plants;
 - (25) charcoal production plants;
 - (26) fossil-fuel-fired steam electric plants of more than 250 million british thermal units per hour heat input; or
 - (27) any other stationary source categories regulated by a standard promulgated as of August 7, 1980, under section 111, new source performance standards, or section 112, hazardous air pollutants, of the federal clean air act, 42 USC 7401 et seq., but only with respect to those air pollutants that have been regulated for that category.
- (ee) "Federally enforceable" means:

(1) all limitations and conditions that are enforceable by the administrator of the U.S. environmental protection agency;

(2) requirements of regulations included in the federally approved state implementation plan; and

(3) any permit requirements established pursuant to these requirements.

(ff) "Fugitive emissions" means those emissions that directly result from operation of an emissions unit or stationary source but that could not reasonably pass through a stack, chimney, vent, or other functionally equivalent opening.

(gg) "Hazardous air pollutant" means one or more of the following chemical pollutants:

CAS number	Chemical name
75070	Acetaldehyde
60355	Acetamide
75058	Acetonitrile
98862	Acetophenone
53963	2-Acetylaminofluorene
107028	Acrolein
79061	Acrylamide
79107	Acrylic acid
107131	Acrylonitrile
107051	Allyl chloride
92671	4-Aminobiphenyl
62533	Aniline
90040	o-Anisidine
1332214	Asbestos
71432	Benzene (including benzene from gasoline)
92875	Benzidine
98077	Benzotrichloride
100447	Benzyl chloride
92524	Biphenyl
117817	Bis(2-ethylhexyl)phthalate (DEHP)
542881	Bis(chloromethyl)ether
75252	Bromoform
106990	1,3-Butadiene
156627	Calcium cyanamide
105602	Caprolactam
133062	Captan
63252	Carbaryl
75150	Carbon disulfide
56235	Carbon tetrachloride
463581	Carbonyl sulfide
120809	Catechol
133904	Chloramben
57749	Chlordane
7782505	Chlorine
79118	Chloroacetic acid
532274	2-Chloroacetophenone
108907	Chlorobenzene
510156	Chlorobenzilate
67663	Chloroform
107302	Chloromethyl methyl ether
126998	Chloroprene
1319773	Cresols/Cresylic acid (isomers and mixture)
95487	o-Cresol
108394	m-Cresol

CAS number	Chemical name
106445	p-Cresol
98828	Cumene
94757	2,4-D, salts and esters
3547044	DDE
334883	Diazomethane
132649	Dibenzofurans
96128	1,2-Dibromo-3-chloropropane
84742	Dibutylphthalate
106467	1,4-Dichlorobenzene(p)
91941	3,3-Dichlorobenzidene
111444	Dichloroethyl ether(Bis(2-chlorethyl)ether)
542756	1,3-Dichloropropene
62737	Dichlorvos
111422	Diethanolamine
121697	N,N-Diethyl aniline (N,N-Dimethylaniline)
64675	Diethyl sulfate
119904	3,3-Dimethoxybenzidine
60117	Dimethyl aminoazobenzene
119937	3,3-Dimethyl benzidine
79447	Dimethyl carbamoyl chloride
68122	Dimethyl formamide
57147	1,1-Dimethyl hydrazine
131113	Dimethyl phthalate
77781	Dimethyl sulfate
534521	4,6-Dinitro-o-cresol, and salts
51285	2,4-Dinitrophenol
121142	2,4-Dinitrotoluene
123911	1,4-Dioxane (1,4-Diethyleneoxide)
122667	1,2-Diphenylhydrazine
106898	Epichlorohydrin (1-Chloro-2,3-epoxypropane)
106887	1,2-Epoxybutane
140885	Ethyl acrylate
100414	Ethyl benzene
51796	Ethyl carbamate (Urethane)
75003	Ethyl chloride (Chloroethane)
106934	Ethylene dibromide (Dibromoethane)
107062	Ethylene dichloride (1,2-Dichloroethane)
107211	Ethylene glycol
151564	Ethylene imine (Aziridine)
75218	Ethylene oxide
96457	Ethylene thiourea
75343	Ethylidene dichloride (1,1-Dichloroethane)
50000	Formaldehyde
76448	Heptachlor
118741	Hexachlorobenzene
87683	Hexachlorobutadiene
77474	Hexachlorocyclopentadiene
67721	Hexachloroethane
822060	Hexamethylene-1,6-diisocyanate
680319	Hexamethylphosphoramide
110543	Hexane
302012	Hydrazine
7647010	Hydrochloric acid
7664393	Hydrogen fluoride (Hydrofluoric acid)

(continued)

CAS number	Chemical name
123319	Hydroquinone
78591	Isophorone
58899	Lindane (all isomers)
108316	Maleic anhydride
67561	Methanol
72435	Methoxychlor
74839	Methyl bromide (Bromomethane)
74873	Methyl chloride (Chloromethane)
71556	Methyl chloroform (1,1,1-Trichloroethane)
78933	Methyl ethyl ketone (2-Butanone)
60344	Methyl hydrazine
74884	Methyl iodide (Iodomethane)
108101	Methyl isobutyl ketone (Hexone)
624839	Methyl isocyanate
80626	Methyl methacrylate
1634044	Methyl tert butyl ether
101144	4,4-Methylene bis(2-chloroaniline)
75092	Methylene chloride (Dichloromethane)
101688	Methylene diphenyl diisocyanate (MDI)
101779	4,4-Methylenedianiline
91203	Naphthalene
98953	Nitrobenzene
92933	4-Nitrobiphenyl
100027	4-Nitrophenol
79469	2-Nitropropane
684935	N-Nitroso-N-methylurea
62759	N-Nitrosodimethylamine
59892	N-Nitrosomorpholine
56382	Parathion
82688	Pentachloronitrobenzene (Quintobenzene)
87865	Pentachlorophenol
108952	Phenol
106503	p-Phenylenediamine
75445	Phosgene
7803512	Phosphine
7723140	Phosphorus
85449	Phthalic anhydride
1336363	Polychlorinated biphenyls (Aroclors)
1120714	1,3-Propane sultone
57578	beta-Propiolactone
123386	Propionaldehyde
114261	Propoxur (Baygon)
78875	Propylene dichloride (1,2-Dichloropropane)
75569	Propylene oxide
75558	1,2-Propylenimine (2-Methylaziridine)
91225	Quinoline
106514	Quinone
100425	Styrene
96093	Styrene oxide
1746016	2,3,7,8-Tetrachlorodibenzo-p-dioxin
79345	1,1,2,2-Tetrachloroethane
127184	Tetrachloroethylene (Perchloroethylene)
7550450	Titanium tetrachloride
108883	Toluene
95807	2,4-Toluene diamine
584849	2,4-Toluene diisocyanate
95534	o-Toluidine

CAS number	Chemical name
8001352	Toxaphene (chlorinated camphene)
120821	1,2,4-Trichlorobenzene
79005	1,1,2-Trichloroethane
79016	Trichloroethylene
95954	2,4,5-Trichlorophenol
88062	2,4,6-Trichlorophenol
121448	Triethylamine
1582098	Trifluralin
540841	2,2,4-Trimethylpentane
108054	Vinyl acetate
593602	Vinyl bromide
75014	Vinyl chloride
75354	Vinylidene chloride (1,1-Dichloroethylene)
1330207	Xylenes (isomers and mixture)
95476	o-Xylenes
108383	m-Xylenes
106423	p-Xylenes
0	Antimony Compounds
0	Arsenic Compounds (inorganic including arsine)
0	Beryllium Compounds
0	Cadmium Compounds
0	Chromium Compounds
0	Cobalt Compounds
0	Coke Oven Emissions
0	Cyanide Compounds *1
0	Glycol ethers *2
0	Lead Compounds

0	Fine mineral fibers *3
0	Nickel Compounds
0	Polycyclic Organic Matter *4
0	Radionuclides (including radon) *5
0	Selenium Compounds

NOTE: For all listings above which contain the word "compounds" and for glycol ethers, the following applies: Unless otherwise specified, these listings are defined as including any unique chemical substance that contains the named chemical as part of that chemical's infrastructure.

*1 X'CN where X = H' or any other group where a formal dissociation may occur. For example KCN or Ca(CN)₂

*2 Includes mono- and di- ethers of ethylene glycol, diethylene glycol, and triethylene glycol R-(OCH₂CH₂)_n-OR' where

n = 1, 2, or 3

R = alkyl or aryl groups

R' = R, H, or groups which, when removed, yield glycol ethers with the structure: R-(OCH₂CH₂)_n-OH. Polymers are excluded from the glycol category.

*3 Includes mineral fiber emissions from facilities manufacturing or processing glass, rock, or slag fibers, (or other mineral derived fibers) of average diameter 1 micrometer or less.

*4 Includes organic compounds with more than one benzene ring, and which have a boiling point greater than or equal to 100-C.

*5 A type of atom which spontaneously undergoes radioactive decay.

(hh) "Incinerator" means any device or structure used for the destruction, or volume reduction of garbage, rubbish, or other liquid or solid waste materials, by combustion, for the purpose of disposal or salvage.

(ii) "Indirect heating equipment" means any device in which fuel is burned to produce heat that is transferred through a heat conducting materials barrier or by a heat storage medium to a material that is to be heated so that the material being heated is not contacted by, and adds no substance to, the products of combustion.

(jj) "Kansas air quality regulations" means those regulations appearing at article 28-19 of the Kansas administrative regulations adopted by the secretary pursuant to K.S.A. 65-3001 et seq., and amendments thereto.

(kk) "Modified open burning operation" means an open burning operation in which the contaminants emitted to the ambient air as a result of combustion are reduced, controlled or both through positive regulation of fuel to air ratios, air screens or other control techniques. Combustion devices used solely for the purpose of disposing of flammable gases shall not be considered to be modified open burning operations.

(ll) "Major source" means any stationary source, or any group of stationary sources that are located on one or more contiguous or adjacent properties and are under common control of the same person, or persons who are under common control, belonging to a single major industrial grouping and that are described in paragraphs (1), (2), (3) or (4) of this subsection. For the purposes of defining "major source," a stationary source or group of stationary sources shall be considered part of a single industrial grouping if all of the pollutant emitting activities at such source or group of sources on contiguous or adjacent properties belong to the same major group with the same two-digit code as described in the Standard industrial classification manual, 1987.

(1) For pollutants other than radionuclides, major source shall include any stationary source or group of stationary sources located within a contiguous area and under common control that emits or has the potential-to-emit, in the aggregate, 10 tons per year or more of any hazardous air pollutant, 25 tpy or more of any combination of such hazardous air pollutants, or such lesser quantity as the secretary may establish by rule. Notwithstanding the preceding sentence, emissions from any oil or gas exploration or production well, with its associated equipment, and emissions from any pipeline compressor station or pump station shall not be aggregated with emissions from other similar units, whether or not such units are in a contiguous area or under common control, to determine whether such units or stations are major sources.

(2) For radionuclides, major source shall have the meaning specified by the secretary by regulation.

(3) Major source shall include a major stationary source of air pollutants, as defined in section 302 of the federal clean air act, that directly emits or has the poten-

tial-to-emit, 100 tons per year or more of any air pollutant, including any major source of fugitive emissions of any such pollutant from a federally designated fugitive emissions source. The fugitive emissions of a stationary source shall not be considered in determining whether it is a major stationary source unless the source is a federally designated fugitive emissions source.

(4) Major source shall include a major stationary source as defined in part D of title I of the federal clean air act.

(mm) "National ambient air quality standard," "national primary ambient air quality standard" and "national secondary ambient air quality standard" mean those standards promulgated at 40 CFR Part 50, as in effect on July 1, 1993, which are adopted by reference.

(nn) "Official observer."

(1) "Official observer" means a designated representative of the department who has been certified by the department as being trained, and qualified on the basis of actual testing, to determine the degree of opacity of visible plumes by direct visual observation. The testing procedure shall be established and published by the department. Each certified individual shall be required to be re-tested at least once every six months to maintain certification.

(2) The term "official observer" shall also include a representative of the USEPA that has been properly certified pursuant to 40 CFR Part 60, appendix A, method 9.

(oo) "Opacity" means the degree to which a contaminant emission obscures an official observer's view of transmitted light passing through that contaminant. Zero percent opacity is perfect transparency and 100 percent opacity is impenetrable to light.

(pp) "Open burning operation" means the burning of any materials in which contaminants resulting from combustion are emitted directly into the ambient air without passing through a stack or chimney from an enclosed chamber. A chamber shall be considered enclosed when only those apertures, ducts, stacks, flues or chimneys that are required to supply combustion air and to permit the escape of exhaust gases are open during the combustion process.

(qq) "Organic material" means a chemical compound of carbon excluding carbon monoxide, carbon dioxide, carbonic acid, metallic carbides or carbonates and ammonium carbonate.

(rr) "Owner or operator" means any person who owns, leases, operates, controls, or supervises an affected facility, emissions unit or stationary source subject to any standard or requirement of the Kansas air quality act, K.S.A. 65-3001 et seq., or any rule and regulation promulgated thereunder.

(ss) "Particulate matter" means any airborne finely divided solid or liquid material, except uncombined water, including PM10.

(tt) "Person" means any individual, corporation, partnership, firm, association, trust, estate, public or private institution, group, agency, political subdivision of this state, any other state or political subdivision or agency thereof, or any legal successor, representative, agent or agency of the foregoing.

(continued)

(uu) "PM10" means particulate matter with an aerodynamic diameter less than or equal to a nominal 10 micrometers as measured by a reference method based on appendix J of 40 CFR Part 50 and designated in accordance with 40 CFR 53.8 or by an equivalent method designated by the administrator of the U.S. environmental protection agency on or before the effective date of this regulation in accordance with 40 CFR 53.8, as in effect on July 31, 1993. Appendix J of 40 CFR Part 50 and 40 CFR 53.8, as in effect on July 31, 1993 are adopted by reference.

(vv) "Portable source" means an emissions unit or stationary source which, due to the design of the emissions unit or stationary source, is capable of being moved from one location to another and which, except for storage purposes, remains at one location no longer than 180 days during any 365 day period unless otherwise approved in writing by the department. A mobile source shall not be considered a portable source.

(ww) "Potential contaminant emission rate" means the total weight of a contaminant that is or, in the absence of control equipment, would be emitted from an air contaminant source when that source is operating at its maximum capacity. The potential contaminant emissions rate shall be determined by:

(1) sampling in a flue or duct prior to the inlet of any control device serving the flue or duct;

(2) estimating such emissions by performing a "material balance" calculation that indicates the difference between processing input weight and output weight of materials;

(3) using potential contaminant emission factors as recognized by the department; or

(4) using any other estimating technique mutually agreeable to the department and the person responsible for operation of the source.

(xx) "Potential-to-emit" means the maximum capacity of a stationary source to emit a pollutant under its physical and operational design. Any physical or operational limitation on the capacity of the source to emit a pollutant, including air pollution control equipment and restrictions on hours of operation or on the type or amount of material combusted, stored, or processed, shall be treated as part of its design if the limitation or the effect it would have on emissions is federally enforceable. Secondary emissions shall not be considered in determining the potential-to-emit of a stationary source.

(yy) "Premises" means one or more contiguous or adjacent parcels of land and any structures or equipment located on the parcels under one ownership. For the purpose of this definition, a parcel of land that is bordering another parcel solely divided by a public roadway or a railroad right of way shall be considered to be adjacent.

(zz) "Processing" means any operation related to the handling, storage, treatment or conversion of input materials to produce a saleable or usable end product.

(aaa) "Regulated pollutant" means:

(1) nitrogen oxides or any volatile organic compounds;

(2) any pollutant for which a national ambient air quality standard has been promulgated;

(3) any pollutant that is subject to any standard promulgated under section 111, standards of performance for new stationary sources, of the federal clean air act;

(4) any class I or II substance subject to a standard promulgated under or established by title VI, stratospheric ozone protection, of the federal clean air act; or

(5) any pollutant subject to a standard promulgated under section 112, hazardous air pollutants, or other requirements established under section 112 of the federal clean air act, including sections 112(g), (j), and (r) of the federal clean air act, including the following:

(A) any pollutant subject to requirements under section 112(j) of the federal clean air act. If the administrator of the USEPA fails to promulgate a standard by the date established pursuant to section 112(e) of the federal clean air act, any pollutant for which a subject source would be major shall be considered to be regulated on the date 18 months after the applicable date established pursuant to section 112(e) of the federal clean air act; and

(B) any pollutant for which the requirements of section 112(g)(2) of the federal clean air act have been met, but only with respect to the individual source subject to section 112(g)(2) requirement.

(bbb) "Responsible official" means one of the following:

(1) For a corporation, a president, secretary, treasurer or vice-president in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation, or a duly authorized representative of such person if the representative is responsible for the overall operation of one or more manufacturing, production or operating facilities applying for or subject to permit or other relevant regulatory requirement and either:

(A) the facilities employ more than 250 persons or have gross annual sales or expenditures exceeding \$25 million, in second quarter, 1980 dollars; or

(B) the delegation of authority to such representative is approved in advance by the department;

(2) for a partnership or sole proprietorship, a general partner or the proprietor, respectively;

(3) for a municipality, or a state, federal or other public agency, a principal executive officer or ranking elected official. For purposes of this definition, a principal executive officer of a federal agency shall include the chief executive officer having responsibility for the overall operations of a principal geographic unit of the agency; or

(4) for affected sources, the designated representative under title IV, acid deposition control, of the federal clean air act, 42 USC 7401 et seq.

(ccc) "Secondary emissions" means emissions which would occur as a result of the construction or operation of a major stationary source or major modification, but do not come from the major stationary source or major modification itself. Secondary emissions shall include emissions from any off-site support facility which would not be constructed or increase its emissions except as a result of the construction or operation of the major stationary source or major modification. Secondary emissions shall not include any emissions which come directly from a mobile source, such as emissions from the tailpipe of a motor vehicle, from a train, or from a vessel.

(ddd) "Significant" means in reference to a net emissions increase or the potential of a source to emit any of

the following pollutants, a rate of emissions that would equal or exceed any of the following rates:

- (1) 100 tons per year of carbon monoxide;
- (2) 40 tons per year of nitrogen oxides;
- (3) 40 tons per year of sulfur dioxide;
- (4) 25 tons per year of particulate matter emissions;
- (5) 15 tons per year of PM10 emissions;
- (6) 40 tons per year of volatile organic compounds for ozone; or
- (7) 0.6 tons per year of lead.

(eee) "Smoke" means particulate matter emissions, resulting from incomplete combustion, that consist primarily of carbon, ash and other material and that form a visible plume in the ambient atmosphere.

(fff) "Startup" means the setting in operation of a stationary source for any purpose.

(ggg) "State implementation plan" means any documents, including state or locally adopted regulations, submitted by a state to, and approved by, the U.S. environmental protection agency as required by the provisions of Section 110 of the federal clean air act, 42 U.S.C. 7410, and any regulations promulgated by the administrator of the U.S. environmental protection agency pursuant to the provisions of that section.

(hhh) "Stationary source" or "source" means any building, structure, facility, or installation which emits or may emit any air pollutant subject to any emission limitation or standard or which is required to obtain a permit pursuant to the Kansas air quality regulations.

(iii) "Temporary" means, in relation to the emissions from a source, that the emissions will not occur at a particular location for a period of more than two years unless a longer time is approved by the secretary or an authorized representative of the secretary.

(jjj) "Total suspended particulate" means particulate matter as measured by the method described in appendix B. of 40 CFR Part 50, as in effect on July 31, 1993, which is adopted by reference.

(kkk) "USEPA" means the United States environmental protection agency, or its successor.

(lll) "Volatile organic compounds (VOC)" means any compound of carbon, excluding carbon monoxide, carbon dioxide, carbonic acid, metallic carbides or carbonates, and ammonium carbonate, which participates in atmospheric photochemical reactions including any organic compound other than those which have been designated by the department as having negligible photochemical reactivity. The following organic compounds have been designated by the department as negligibly reactive:

- (1) methane;
- (2) ethane;
- (3) 1,1,1-trichloroethane (methyl chloroform);
- (4) methylene chloride;
- (5) trichlorofluoromethane (CFC-11);
- (6) dichloro-difluoromethane (CFC-12);
- (7) chlorodifluoromethane (CFC-22);
- (8) trifluoromethane (FC-23);
- (9) trichlorotrifluoroethane (CFC-113);
- (10) dichlorotetrafluoroethane (CFC-114);
- (11) chloropentafluoroethane (CFC-115);
- (12) dichlorotrifluoroethane (HCFC-123);
- (13) tetrafluoroethane (HCFC-134a);

- (14) dichlorofluoroethane (HCFC-141b);
- (15) chlorodifluoroethane (HCFC-142b);
- (16) chlorotetrafluoroethane (HCFC-124);
- (17) pentafluoroethane (HCFC-125);
- (18) tetrafluoroethane (HCFC-134);
- (19) trifluoroethane (HCFC-143a);
- (20) difluoroethane (HCFC-152a);
- (21) parachlorobenzotrifluoride (PCBTF);
- (22) cyclic, branched, or linear completely methylated siloxanes;
- (23) acetone; and
- (24) the following classes of perfluorocarbon compounds:

(A) cyclic, branched, or linear, completely fluorinated alkanes;

(B) cyclic, branched, or linear, completely fluorinated ethers with no unsaturations;

(C) cyclic, branched, or linear, completely fluorinated tertiary amines with no unsaturation; and

(D) sulfur containing perfluorocarbons with no unsaturations and with sulfur bonds only to carbon and fluorine.

(mmm) "Waste" means garbage, refuse and other discarded materials including, but not limited to solids, semisolids, sludges, liquids and contained gaseous waste materials resulting from industrial, commercial, agricultural and domestic activities. The term "waste" shall not include hazardous wastes which is defined in K.A.R. 28-31-3. (Authorized by and implementing K.S.A. 1994 Supp. 65-3005; effective Jan. 1, 1971; amended Jan. 1, 1972; amended, E-73-8, Dec. 27, 1972; amended Jan. 1, 1974; amended May 1, 1975; amended, T-84-39, Dec. 21, 1983; amended May 1, 1984; amended, T-85-29, Nov. 14, 1984; amended May 1, 1985; amended May 1, 1988; amended Oct. 16, 1989; amended Nov. 22, 1993; amended Jan. 23, 1995; amended Dec. 8, 1995.)

28-19-511. Class I operating permits; application contents. (a) Applications for class I operating permits and renewals of class I operating permits shall be submitted in writing on forms provided or approved by the department.

(1) The original and two copies of the application, including all supporting documentation, shall be submitted to the department.

(2) An additional copy shall be submitted for each affected state.

(b) Except as provided in paragraph (h) of this regulation, an application for a class I operating permit shall include, but is not limited to, the following information:

(1) identifying information, including:

(A) company name and address or plant name and address if different from the company name;

(B) the owner's name and agent;

(C) the name and address of the responsible official; and

(D) the telephone number and names of plant site manager or contact person;

(2) a description of the stationary source's processes and products, by standard industrial classification code, including any associated with each alternate scenario identified by the applicant;

(continued)

(3) all emissions, including fugitive emissions, of pollutants for which the source is major and all emissions, including fugitive emissions, of regulated pollutants.

(A) A permit application shall describe all emissions of regulated pollutants emitted from any emissions unit, except for insignificant activities, a list of which shall be maintained by the department, or insignificant emission levels.

(B) For insignificant activities which are exempt because of size or production rate, a list of such insignificant activities shall be included in the application.

(C) Information regarding an insignificant activity or emission shall not be omitted if the information is necessary to determine whether an applicable requirement applies or should be imposed.

(D) Additional information related to the emissions of air pollutants sufficient to verify which requirements are applicable to the source may be required by the department.

(E) For purposes of this subsection, insignificant emission levels include those from emissions units which do not have a potential-to-emit in excess of the following and for which no applicable requirement exists:

(i) the de minimis level for any hazardous air pollutant;

(ii) one hundred tons per year of carbon monoxide;

(iii) forty tons per year of nitrogen oxides;

(iv) forty tons per year of sulfur dioxide;

(v) twenty-five tons per year of particulate matter emissions;

(vi) fifteen tons per year of PM10 emissions;

(vii) forty tons per year of volatile organic compounds;

or

(viii) 0.6 tons per year of lead;

(4) identification and description of all points of emissions described in paragraph (b)(3) of this regulation in sufficient detail to establish the applicability of requirements of the Kansas air quality act;

(5) emissions rates stated in tons per year and in such terms as are necessary to establish compliance consistent with any applicable standard reference test methods;

(6) the following information to the extent it is needed to determine or regulate emissions:

(A) fuels;

(B) fuel use;

(C) raw materials;

(D) production rates; and

(E) operating schedules;

(7) identification and description of air pollution control equipment and compliance monitoring devices or activities;

(8) limitations on source operations affecting emissions or any work practice standards, where applicable, for all regulated pollutants at the emissions unit or stationary source;

(9) any other information required by any applicable requirement, including information related to stack height limitations developed pursuant to K.A.R. 28-19-18 through 28-19-18f;

(10) calculations on which the information in paragraphs (b)(3) through (b)(9) of this regulation is based;

(11) the citation and a description of all applicable requirements and a description of or reference to any ap-

plicable test method for determining compliance with each applicable requirement;

(12) other specific information that may be necessary to implement and enforce other applicable requirements or to determine the applicability of such requirements;

(13) an explanation of any proposed exemptions from otherwise applicable requirements;

(14) additional information as determined to be necessary by the department to define alternative operating scenarios identified by the applicant or to define other permit terms and conditions;

(15) a statement of whether the stationary source is obligated to register and submit a risk management plan pursuant to section 112(r) of the federal clean air act and, if so, whether the required submittal has been prepared and submitted to the appropriate authorities;

(16) a compliance plan for all emissions units or stationary sources. These compliance plan content requirements shall also be applicable to affected sources under title IV, acid deposition control, of the federal clean air act unless specifically superseded by statute or regulation. A compliance plan shall contain all of the following:

(A) a description of the compliance status of the emissions unit or stationary source with respect to all applicable requirements;

(B) a description as follows:

(i) for applicable requirements with which the emissions unit or stationary source is in compliance, a statement that the emissions unit or stationary source will continue to comply with such requirements;

(ii) for applicable requirements that will become effective during the permit term, a statement that the emissions unit or stationary source will meet such requirements on a timely basis;

(iii) for requirements for which the emissions unit or stationary source is not in compliance at the time of permit issuance, a narrative description of how the emissions unit or stationary source will achieve compliance with such requirements;

(iv) for any source that fails to verify in its application pursuant to K.A.R. 28-19-511(b)(15) that it has submitted a risk management plan in accordance with section 112(r) of the federal clean air act, a statement that the source will submit the required plan by a date specified in the permit;

(C) a compliance schedule as follows:

(i) for applicable requirements with which the emissions unit or stationary source is in compliance, a statement that the emissions unit or stationary source will continue to comply with such requirements;

(ii) for applicable requirements that will become effective during the permit term, a statement that the emissions unit or stationary source will meet such requirements on a timely basis. A statement that the emissions unit or stationary source will comply in a timely manner with any applicable requirements that become effective during the permit term shall satisfy this provision, unless a more detailed schedule is expressly required by the applicable requirement;

(iii) a schedule of compliance for emissions units or stationary sources that are not in compliance with all applicable requirements at the time of permit issuance. The schedule shall include a schedule of remedial measures,

including an enforceable sequence of actions with milestones, leading to compliance with any applicable requirements for which the emissions unit or stationary source will be in noncompliance at the time of permit issuance. This compliance schedule shall resemble and be at least as stringent as that contained in any judicial consent decree or administrative order to which the emissions unit or stationary source is subject. Any such schedule of compliance shall be supplemental to, and shall not sanction noncompliance with, the applicable requirements on which it is based;

(D) a schedule for submission of certified progress reports no less frequently than every 6 months for emissions units or stationary sources required to have a schedule of compliance to remedy a violation; and

(E) a statement that failure to comply with any term of a compliance plan or compliance schedule shall be considered a violation of this regulation; and

(17) requirements for compliance certification, including the following:

(A) a certification of compliance with all applicable requirements by a responsible official consistent with paragraph (e) of this regulation and K.S.A. 65-3008(b) and amendments thereto;

(B) a statement of methods used for determining compliance, including a description of monitoring, record-keeping, and reporting requirements and test methods;

(C) a schedule for submission of compliance certifications during the permit term, to be submitted no less frequently than annually, or more frequently is specified by the underlying applicable requirement or the department;

(D) a statement indicating the compliance status of the emission unit or stationary source with any applicable enhanced monitoring requirements and applicable compliance certification requirements; and

(E) a statement indicating that the stationary source is properly implementing any required risk management plan in accordance with section 112(r) of the federal clean air act.

(c) The owner or operator of the stationary source shall provide additional information requested by the department.

(d) The owner or operator of the stationary source may apply for restrictions of operating hours or restrictions on the type or amount of material combusted, stored or processed. The restrictions may be incorporated into the class I operating permit. The calculation of the potential-to-emit of the stationary source shall take into consideration such operational restrictions if the procedures set out at K.A.R. 28-19-501 were followed during the issuance of the construction or class I operating permit.

(e) Any application form, report, or compliance certification submitted pursuant to these regulations shall contain certification by a responsible official of truth, accuracy, and completeness. This certification and any other certification required under the Kansas air quality act, and regulations promulgated thereunder, shall state that, based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete.

(f) Any person who fails to submit any relevant facts or who has submitted incorrect information in a permit

application shall, upon becoming aware of such failure or incorrect submittal, promptly submit such supplementary facts or corrected information. In addition, an applicant shall provide additional information as necessary to address any requirements that become applicable to the stationary source after the date a complete application was filed but prior to the solicitation of public comments regarding the proposed permit.

(g) Failure to comply with any term of a compliance plan or compliance schedule shall be considered a violation of this regulation.

(h) For any non-major or area source required to obtain a class I operating permit, an application shall address only the applicable requirements applicable to emission units that cause the source to require a class I operating permit. These non-major or area sources shall be subject to an application fee of \$50.00 in lieu of the requirements of K.A.R. 28-19-516. (Authorized by K.S.A. 1994 Supp. 65-3005; implementing K.S.A. 1994 Supp. 65-3008; effective Jan. 23, 1995; amended Dec. 8, 1995.)

28-19-512. Class I operating permits; permit content. (a) The owner or operator of a stationary source which is authorized to operate pursuant to a class I operating permit shall assure that the stationary source operates in compliance with the terms and conditions of the class I operating permit, which shall include, but are not limited to:

(1) emission limitations and standards, including those operational requirements and limitations that assure compliance with all applicable requirements at the time of permit issuance;

(2) all applicable requirements for all relevant emissions units for a major source;

(3) all applicable requirements applicable to emissions units that cause a non-major source to require a class I operating permit;

(4) a description of fugitive emissions in the same manner as stack emissions, regardless of whether the source is a federally designated fugitive emissions source;

(5) specification and reference to the origin of and authority for each term or condition, identifying any difference in form as compared to the applicable requirement upon which the term or condition is based;

(6) where an applicable requirement of any other title of the federal clean air act is more stringent than an applicable requirement of regulations promulgated under title IV, acid deposition control, of the federal clean air act, both provisions;

(7) where a permit contains an emission limitation which is authorized by the state implementation plan and is an alternative to an emission limitation contained in the state implementation plan, provisions to ensure that any resulting emissions limitation has been demonstrated to be quantifiable, enforceable, and based on replicable procedures;

(8) specification of a fixed term of the class I operating permit determined pursuant to K.A.R. 28-19-514;

(9) emissions monitoring and related recordkeeping and reporting requirements, including;

(A) all emissions monitoring and analysis procedures or test methods required under the applicable requirements, including any procedures and methods adopted

(continued)

to comply with the requirements of section 504(b), permit requirements and conditions, or section 114(a)(3), enhanced monitoring and compliance certifications, of the federal clean air act;

(B) periodic monitoring sufficient to yield reliable data from the relevant time period that are representative of the source's compliance with the permit, as reported pursuant to paragraph (a)(8) of this regulation where the applicable requirement does not require periodic testing or instrumental or non-instrumental monitoring, which may consist of recordkeeping designed to serve as monitoring. The monitoring requirements shall assure use of terms, test methods, units, averaging periods, and other statistical conventions consistent with the applicable requirement; and

(C) as necessary, requirements concerning the use, maintenance, and, where appropriate, installation of monitoring equipment or methods;

(10) applicable recordkeeping requirements and required monitoring information, including:

(A) the date, place as defined in the permit, and time of sampling or measurements of required monitoring information;

(B) the date or dates analyses were performed;

(C) the company or entity that performed the analyses;

(D) the analytical techniques or methods used;

(E) the results of such analyses;

(F) the operating conditions as existing at the time of sampling or measurement; and

(G) the retention of records of all required monitoring data and support information for a period of at least 5 years from the date of the monitoring sample, measurement, report, or application. Support information shall include all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by the permit;

(11) applicable reporting requirements, including:

(A) submittal of reports of any required monitoring at least every 6 months. All instances of deviations from permit requirements shall be clearly identified in such reports. All required reports must be certified by a responsible official consistent with K.A.R. 28-19-511(e); and

(B) as specified in the permit, prompt reporting of deviations from permit requirements, including those attributable to upset conditions as defined in the permit, the probable cause of such deviations, and any corrective actions or preventive measures taken;

(12) conditions prohibiting emissions exceeding any allowances that the emissions unit or stationary source lawfully holds under title IV, acid deposition control, of the federal clean air act or the regulations promulgated thereunder.

(A) A permit revision shall not be required for increases in emissions that are authorized by allowances acquired pursuant to title IV, acid deposition control, of the federal clean air act, provided that such increases do not require a permit revision under any other applicable requirement.

(B) A limit shall not be placed on the number of allowances held by the emissions unit or stationary source. The emissions unit or stationary source shall not, however, use allowances as a defense to noncompliance with any other applicable requirement.

(C) Any allowance shall be accounted for according to the procedures established in regulations promulgated under title IV, acid deposition control, of the federal clean air act;

(13) a severability clause to ensure the continued validity of the various permit requirements in the event of a challenge to any portion of the permit;

(14) provisions stating that:

(A) the permittee must comply with all conditions of the permit. Any permit noncompliance shall constitute a violation of the Kansas air quality act and shall be grounds for enforcement action, for permit revocation or amendment, or for denial of a permit renewal application;

(B) it shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of the permit;

(C) the permit may be modified, revoked, reopened and reissued, or terminated for cause. An action for a permit modification or amendment, or of a notification of planned changes or anticipated noncompliance shall not stay any permit condition;

(D) the permit shall not convey any property rights of any sort, or any exclusive privilege; and

(E) the permittee shall furnish to the department, within a reasonable time, any information that the department may request in writing to determine whether cause exists for amending or revoking the permit or to determine compliance with the permit. Upon request, the permittee shall also furnish to the department copies of records required to be kept by the permit;

(15) a provision to ensure that the owner or operator of a permitted emissions unit or stationary source pays fees to the permitting authority consistent with the fee schedule set out in these regulations;

(16) a provision stating that no permit revision shall be required under any approved economic incentives, pollution prevention incentives, marketable permits, emissions trading and other similar programs or processes for changes that are provided for in the permit;

(17) terms and conditions for reasonably anticipated operating scenarios identified by the owner or operator of the emissions unit or stationary source in its application as approved by the department. The terms and conditions:

(A) shall require the source, contemporaneously with making a change from one operating scenario to another, to record in a log at the permitted facility a record of the scenario under which it is operating;

(B) may extend the permit shield described in paragraph (b) of this regulation to all terms and conditions under each such operating scenario; and

(C) shall ensure that the terms and conditions of each such alternative scenario meet all applicable requirements and the requirements of this part;

(18) terms and conditions, if the permit applicant requests them, for the trading of emissions increases and decreases in the permitted facility, to the extent that the applicable requirements provide for such trading without a case-by-case approval of each emissions trade. The source shall provide the department and the USEPA with written notice at least seven days in advance of any pro-

posed change within the source stating when the change will occur, the changes in emissions that will result, and how the emissions decreases or increases will comply with the terms and conditions of the permit. The terms and conditions:

(A) shall include all terms required under subsection (a) of this regulation to determine compliance;

(B) may extend the permit shield described in paragraph (b) of this regulation to all terms and conditions that allow such increases and decreases in emissions; and

(C) shall meet all applicable requirements and requirements of the Kansas air quality regulations;

(19) provisions that designate as not being federally enforceable under the federal clean air act any terms and conditions included in the permit that are not required under the federal clean air act or under any of its applicable requirements;

(20) a statement of all federally enforceable permit restrictions;

(21) consistent with other relevant subsections of this regulation, certification, testing, monitoring, reporting, and recordkeeping requirements sufficient to assure compliance with the terms and conditions of the permit. Any document, including reports, required by the permit shall contain a certification by a responsible official that meets the requirements of K.A.R. 28-19-511(e);

(22) inspection and entry requirements that require that, upon presentation of credentials and other documents as may be required by law, the permittee shall allow the department or an authorized representative to:

(A) enter upon the permittee's premises where the emissions unit or stationary source is located or emissions-related activity is conducted, or where records shall be kept under the conditions of the permit;

(B) have access to and copy, at reasonable times, any records that shall be kept under the conditions of the permit;

(C) inspect at reasonable times any facilities, equipment including monitoring and air pollution control equipment, practices, or operations regulated or required under the permit; and

(D) as authorized by the Kansas air quality act, sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit or applicable requirements;

(23) a schedule of compliance consistent with the requirements of K.A.R. 28-19-511(b)(16)(C);

(24) progress reports consistent with any applicable schedule of compliance established pursuant to K.A.R. 28-19-511(b)(16)(D) to be submitted at least semiannually, or at a more frequent period if specified in the applicable requirement or by the permitting authority. The progress reports shall contain the following:

(A) dates for achieving the activities, milestones, or compliance required in the schedule of compliance, and dates when such activities, milestones or compliance were achieved; and

(B) an explanation of why any dates in the schedule of compliance were not or will not be met, and any preventive or corrective measures adopted;

(25) requirements for compliance certification with the terms and conditions contained in the permit, including:

(A) emission limitations, standards or work practices, and risk management plan implementation; and

(B) a means of monitoring the compliance of the emissions unit or stationary source with its emissions limitations, standards, and work practices in accordance with the relevant provisions of this regulation;

(26) requirements to submit compliance certifications annually or more frequently as specified in the applicable requirement or by the department, which shall include the following:

(A) the identification of each term or condition of the permit that is the basis of the certification;

(B) the compliance status;

(C) whether compliance was continuous or intermittent;

(D) the method or methods used for determining the compliance status of the emissions unit or stationary source, currently and over the reporting period, consistent with relevant provisions of this regulation; and

(E) other facts as the department may require to determine the compliance status of the source;

(27) a requirement that all compliance certifications be submitted to the USEPA as well as to the department;

(28) a requirement for additional monitoring as may be required by the federal clean air act; and

(29) other provisions as the department deems necessary to accomplish the purposes of the Kansas air quality act.

(b) Permit shield.

(1) Except as otherwise provided in the air quality regulations, the department may expressly include in a class I operating permit a permit shield stating that compliance with the conditions of the permit shall be deemed compliance with any applicable requirements as of the date of permit issuance, provided that:

(A) the applicable requirements are included and are specifically identified in the permit; or

(B) the department, in acting on the permit application or revision, determines in writing that other requirements specifically identified are not applicable to the emissions unit or stationary source, and the permit includes the determination or a concise summary thereof.

(2) A permit that does not expressly state that a permit shield exists shall be presumed not to provide a shield.

(3) Nothing in this regulation or in any permit shall alter or affect the following:

(A) the provisions of section 303, emergency orders, of the federal clean air act, including the authority of the administrator of the USEPA under that section or the air pollution emergency provisions of the Kansas air quality regulations, K.A.R. 28-19-55 through 28-19-58;

(B) the liability of an owner or operator of an emissions unit or stationary source for any violation of applicable requirements prior to or at the time of permit issuance;

(C) the applicable requirements of title IV, acid deposition control, of the federal clean air act, consistent with section 408(a) of the federal clean air act; or

(D) the ability of the USEPA to obtain information from a source pursuant to section 114, inspections, monitoring and entry, of the federal clean air act.

(c) Portable sources. A permit for a portable emissions unit or stationary source may authorize similar operations by the same source owner or operator at multiple temporary locations. The operation shall be temporary

(continued)

and involve at least one change of location during the term of the permit. An affected source shall not be permitted as a portable source. Permits for portable sources shall include the following:

(1) conditions that will assure compliance with all applicable requirements at all authorized locations;

(2) requirements that the owner or operator notify the permitting authority at least 10 days in advance of each change in location; and

(3) conditions that assure compliance with all other provisions of the Kansas air quality regulations.

(d) Emergencies.

(1) An "emergency" means any situation arising from sudden and reasonably unforeseeable events beyond the control of the source, including acts of God, which situation requires immediate corrective action to restore normal operation, and that causes the source to exceed a technology-based emission limitation under the permit, due to unavoidable increases in emissions attributable to the emergency. An emergency shall not include noncompliance to the extent caused by improperly designed equipment, lack of preventative maintenance, careless or improper operation, or operator error.

(2) An emergency shall constitute an affirmative defense to an action brought for noncompliance with such technology-based emission limitations if the conditions of paragraph (d)(3) of this regulation are met.

(3) The affirmative defense of emergency shall be demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that:

(A) an emergency occurred and that the permittee can identify the cause or causes of the emergency;

(B) the permitted facility was at the time being properly operated;

(C) during the period of the emergency the permittee took all reasonable steps to minimize levels of emissions that exceeded the emission standards or other requirements in the permit; and

(D) the permittee submitted notice of the emergency to the department within two working days of the time when emission limitations were exceeded due to the emergency. This notice shall fulfill the requirement of paragraph (a)(11)(B) of this regulation. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

(4) In any enforcement proceeding, the permittee seeking to establish the occurrence of an emergency shall have the burden of proof.

(5) This provision shall be in addition to any emergency or upset provision contained in any applicable requirement. Whenever the provisions of this regulation regarding emergencies conflict with the provisions of K.A.R. 28-19-11, the provisions of this regulation shall control. (Authorized by K.S.A. 1994 Supp. 65-3005; implementing K.S.A. 1994 Supp. 65-3008; effective Jan. 23, 1995; amended Dec. 8, 1995.)

28-19-518. Class I operating permits; complete applications. (a) An application for the issuance, renewal or significant modification of a class I operating permit timely filed and deemed complete shall have the effect of allowing the emissions unit or stationary source to continue to operate in the same legal capacity as on the date the application is deemed complete until such time as

final agency action is taken on the application or until such time as the application is subsequently deemed incomplete.

(b) An application for a class I or class II operating permit shall be deemed complete as of the date the application was submitted to the department if:

(1) the department determines that the information submitted by the applicant substantially complies with the requirements of K.A.R. 28-19-511 and notifies the applicant, in writing within 60 days after the application was submitted, that the application has been deemed complete;

(2) after an application has been deemed complete, the applicant submits additional information requested in writing by the department within the time-frame specified by the department or within 60 days of the date of the request if no time-frame is specified by the department; or

(3) the department fails to notify the applicant that the application is not complete within the time-frames specified in paragraphs (b)(1) and (b)(2) of this regulation.

(c) The department may request additional information from the applicant even though the department has previously deemed the application to be complete. Failure of the applicant to submit any additional information the department has requested in writing within the time-frame specified in the request, or within 60 days of the date of the request if no time-frame is specified, shall result in the application being deemed incomplete as of the date the requested information was to be submitted, even though the application may have been deemed complete prior to the date the additional information was to be submitted to the department.

(d) For purposes of this regulation, a document shall be considered submitted to the department on the day it is physically delivered to the department or the date of the post mark if the document is mailed to the department.

(e) Any person who fails to submit any relevant facts or who has submitted incorrect information in an application for the issuance, renewal or significant modification of a class I operating permit shall, upon becoming aware of such failure or incorrect submittal, promptly submit such supplementary facts or corrected information. In addition, the owner or operator shall submit to the department such additional information as is necessary to address any requirements that become applicable to the emissions unit or stationary source after the date a complete application was filed but prior to the date the permit is placed on public notice. (Authorized by K.S.A. 1994 Supp. 65-3005; implementing K.S.A. 1994 Supp. 65-3008; effective Jan. 23, 1995; amended Dec. 8, 1995.)

INDEX TO ADMINISTRATIVE REGULATIONS

This index lists in numerical order the new, amended and revoked administrative regulations and the volume and page number of the *Kansas Register* issue in which more information can be found. This cumulative index supplements the index found in the 1995 Supplement to the *Kansas Administrative Regulations*.

AGENCY 1: DEPARTMENT OF ADMINISTRATION

Reg. No.	Action	Register
1-2-1	Revoked	V. 14, p. 1441
1-2-4	Amended	V. 14, p. 1441
1-2-5	Revoked	V. 14, p. 1441
1-2-8	New	V. 14, p. 1441
1-2-9	Amended	V. 14, p. 1441
1-2-11	Revoked	V. 14, p. 1441
1-2-14	New	V. 14, p. 1441
1-2-17	Amended	V. 14, p. 1441
1-2-20	New	V. 14, p. 172, 483
1-2-26	Revoked	V. 14, p. 1441
1-2-27	Revoked	V. 14, p. 1441
1-2-29	Revoked	V. 14, p. 1441
1-2-31	Amended	V. 14, p. 1441
1-2-35	Amended	V. 14, p. 1441
1-2-37	Revoked	V. 14, p. 1441
1-2-42	New	V. 14, p. 1441
1-2-42a	New	V. 14, p. 1441
1-2-43	Revoked	V. 14, p. 1442
1-2-44	New	V. 14, p. 1442
1-2-46	Amended	V. 14, p. 1442

Order a custom-made loose-leaf binder for the Kansas Register!

Custom-made Kansas Register binders are now available. These binders will attractively hold up to a year's worth of your copies of the Kansas Register for permanent use. They are high quality, durable casebound Swing Hinge® binders made by McBee Loose Leaf Binder Products. (A Swing Hinge® binder has more capacity and allows for easier interfiling than standard ring binders.) The three-inch binders feature dark blue supported vinyl covering and gold imprinting.

\$12 each, includes shipping and handling.

(Kansas residents must include an additional \$.74 state and local sales tax.)
